

MISSION REPORT

Belgrade, 09.11.2011

The meeting of the Creating Alumni network for each university in RS coordinator of the Students union of Serbia, Boris Petrović, with the members of the University of Belgrade, was held on 09.11.2011 at the University of Belgrade, Belgrade, starting from 10:00. This meeting was organized for management coordinating purposes having in mind that the activities within the fifth work package of the SIGMUS project (**WP5**) **Establishment and development of student services at Serbian Universities** are in progress.

The meeting was started by checking the list of things that were agreed to be completed before these meeting. So a colleague Ivica Mladenović started a brief of what the data would be useful in the first part of the document, given to us by the Congress of Serbian unification, while the second part of the document analyzed Boris Petrović.

Besides processing document "Alumni_project_cumulative_data", it was agreed that the easiest way to create alumni networks is to create software that will collect data on alumni in each of the universities in Serbia.

Maria Sola attended one part of the meeting, in which we received information on the tender that will be opened soon. On these tender, addition to regular equipment, the above mentioned software will be owed.

The meeting was very productive, with indications that future meetings will be as fruitful as this the new obligations have been agreed.

Boris Petrović, member of the steering committee of Students union of Serbia (SUS)
