TEMPUS

ESTABLISHMENT OF STUDENT MENTORS POOL

- **Student Services (SSS) at the Universities:** in line with the European Students' Union Policy Paper on Social Dimension and the idea of student support services at the universities.

Publication on SMP:

- Student Centered Learning – a paradigm shift in teaching and learning, students as active part. In their own learning, autonomous learning, ownesrhip of their own learning

- Student union development and student support services, empowering students. Make sure that students are already trained as independent before going to organisations - making sure that organissations are independent.

- Database of student organizations to develop the SSS.

STUDENT SERVICES

How to organise?

- Status and Standing Orders of unions to adopt the change,

- Services at the University/local level,

- Sustainability and future development to be guaranteed by the higher education institution and the student unions.

Terms of references?

- Student unions to develop a common ToR,

- ToRs to be developed on the basis of:

➢ *Individual work*: support to individual students, SCL - the paradigm shift in teaching and learning,

➢ *Group work*: student union development and capacity building,

- Consultation on ToRs with student councils, teaching staff and career centers, empowering cooperation (emp. of students is not about disemp. of teachers)

SMP

- Training on SMP

- Publication on SMP
